

# CFW120 Z FLAT SURFACES WET FINISHING MACHINE

## GENERAL DESCRIPTION:

CFW120 Z is a basic flat wet finishing with one abrasive belt head.

This machine has a maximum working width of 120mm and a 3 Kw motor. The cooling system is working in a closed circuit.

Ideal for tubes and bars finishing.

## TECHNICAL DATA:

Working capacity (mm)	120x120
Abrasive belt speed (m/s)	20
Abrasive belt (mm)	120x1850
Abrasive belt motor (kW)	3
Conveyor belt speed (m/m)	12 or 6 + 12
Consumption (A)	7
Dimensions approx. (mm)	975x880x1800
Weight approx. (kg)	350

## ABOUT BASE:

Base Simple Grinding Machines were thought for small workshops and productions where flexibility is mandatory.

Basic round or square tube finishing or notching is possible with the complementary NS offer of these simple and versatile finishing machines.

Abrasive belt head. Easy belt replacement: no tools needed

Water cooling system: integrated tank and pump

Contact roller with souble water spray
